LETTER FROM THE MANAGEMENT BOARD

Warsaw, 14 November 2024

DEAR SHAREHOLDERS AND INVESTORS,

It is with great pleasure that we present the quarterly report of 11 bit studios S.A. for the nine months ended 30 September 2024. This has been an exceptional period for the Company, marked by record-breaking revenue, operating profit, and net profit, all of which have surpassed the corresponding full-year figures from our best year to date, 2020.

Over the first nine months of this year, our revenue exceeded PLN 106.6 million, up 211.1% compared to the same period in 2023. The third quarter alone contributed nearly PLN 76 million, an increase of almost seven times over last year. By keeping operating costs under strict control, we achieved an operating profit of over PLN 53 million and a net profit of nearly PLN 47.53 million, an extraordinary year-on-year growth of 3,420.1%.

The key factor driving 11 bit studios' performance figures for the nine months ended 30 September 2024 was the launch of *Frostpunk 2* for PC on 20 September. By the end of the reporting period, we had sold 441,000 copies (net of returns), with an impressive 53.7% of buyers choosing the Deluxe edition. Revenues from this version will continue to be recognised over time as we release the additional paid DLCs included in the package. By the time of issue of these financial statements, total sales had grown to 511,000 copies, with the Deluxe version accounting for 48.7% of sales. Notably, nearly 25% of *Frostpunk 2* buyers as at 30 September were from China (now at 24.2%), followed by the US at 18.2% (now 18.5%) and Germany at 7.1% (now 7.2%). Sales in Poland as at 30 September and to date have accounted for 2.9% of the total. With the strong pre-order performance and solid sales of *Frostpunk 2* in the lead-up to and aftermath of the release (despite mixed reviews from players), revenue generated by the game, plus a portion of payments from Microsoft for its inclusion in Game Pass, reached nearly PLN 52.33 million. This represented 49.1% of our total revenue in the nine months to 30 September 2024. Additionally, we saw strong performance from the first product in the *Frostpunk* series, including paid DLCs and related merchandise

such as the board game and soundtracks. Our publishing segment also made a strong contribution, with recent quarters' additions to its portfolio including *The Invincible*, *The Thaumaturge*, *INDIKA* and *Creatures of Ava*. Sales from the publishing segment accounted for 26% (PLN 27.62 million) of total revenue for the reporting period.

Looking ahead, our primary focus is on enhancing the gameplay experience in *Frostpunk 2* to better meet the expectations of the dedicated fanbase of the *Frostpunk* universe and new players. We believe that our commitment to addressing community feedback through updates, major expansions, and additional paid content, supported by marketing campaigns, will translate into a long lifecycle for the game and maximise its monetisation, as was the case with its predecessor in the series. The insights gained from the *Frostpunk 2* launch will also guide us as we prepare for the release of *The Alters* in the first quarter of 2025. This project is of great importance to us, as its premiere is expected to be a major driver of our financial results over future periods and, as we strongly believe, will validate our current growth strategy.

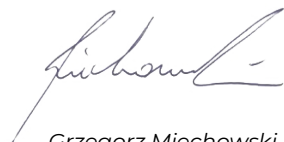

At the same time, we are mindful of the rapidly changing dynamics of the gaming industry. The release of *Frostpunk 2* and recent titles from our publishing portfolio, some of which fell short of expectations, have highlighted the need for a thoughtful reassessment of our direction in the years ahead. This will include revisiting our strategy for the publishing segment. We will share our future plans at an Investor Conference we intend to hold following the launch of *The Alters*, and warmly invite you to join us for this important event.

Thank you once again for the trust you place in our Company, and we encourage you to explore the report.

TAX IDENTIFICATION NUMBER (NIP):	1182017282
Industry Identification Number (REGON):	142118036

The Company was established for indefinite time. The financial year of the Company is the same as the calendar year.

The Company's principal business activity includes:

- production of cross-platform computer games,
- Sale of cross-platform computer games.

The Company does not have any subsidiaries or interests in joint ventures but has an associate.

BASIS OF ACCOUNTING USED IN PREPARING THESE CONDENSED INTERIM FINANCIAL STATEMENTS

These condensed interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting* endorsed by the European Union ("IAS 34") and the Regulation of the Minister of Finance of 29 March 2018 on current and periodic information to be provided by issuers of securities and on conditions under which information required by legal regulations of a third country may be recognised as equivalent (Dz.U. of 2018, item 757), and present the financial position of 11 bit studios S.A. as at 30 September 2024 and 31 December 2023, and results of its operations and cash flows for the nine months ended 30 September 2024 and 30 September 2023.

These condensed interim financial statements do not include all the information and disclosures required in full-year financial statements and should be read in conjunction with the Company's financial statements for the year ended 31 December 2023.

These condensed interim financial statements have been prepared based on the assumption that the Company will continue as a going concern for the foreseeable future.

As at the date of authorisation of these financial statements, no circumstances were identified which would indicate that the Company may be unable to continue as a going concern.

FUNCTIONAL AND PRESENTATION CURRENCY

These condensed interim financial statements are presented in the Polish złoty (PLN). The Management Board decided that the Polish złoty would be the Company's functional and presentation currency. In the case of an entity operating on international markets, the choice of the functional currency and the identification of the currency that should be recognised as the currency used in the principal economic environment in which the entity operates, is a subjective decision. The Company monitors its economic environment for any material changes that could affect its choice of functional currency.

Transactions carried out in a currency other than the functional currency (foreign currency transactions) are reported using the exchange rate effective at the date of the transaction. As at the reporting date, monetary assets and liabilities denominated in

foreign currencies are translated at the exchange rate effective on that date. Non-monetary items that are measured at fair value and denominated in a foreign currency are translated using the exchange rate effective on the date of the fair value measurement. Non-monetary items are measured at historical cost.

Exchange differences arising on a monetary item are recognised in profit or loss for the period in which they arise.

Most exchange differences arising in the Company's operations are related to export sales and the related trade receivables. The Company presents exchange differences in finance income or costs, as appropriate, which facilitates a more thorough review of the Company's results as well as the sources of its income and expenses.

COMPLIANCE WITH INTERNATIONAL FINANCIAL REPORTING STANDARDS

These condensed interim financial statements of the Company have been prepared in accordance with the accounting policies

presented in the Company's most recent full-year financial statements for the year ended 31 December 2023.

STATEMENT OF ACCOUNTING POLICIES

In these condensed interim financial statements, significant accounting policies and significant judgements and estimates applied by the Company

were the same as those described in the notes to the financial statements for 2023.

SIGNIFICANT JUDGEMENTS AND ESTIMATES

When applying the accounting policies adopted by the Company, the Company's Management Board is required to make judgements, estimates and assumptions in the process of measuring assets and

liabilities. Estimates and their underlying assumptions are based on historical experience and other factors considered material. Actual results may differ from those estimates.

Professional judgement in accounting

The principal judgements which the Management Board made in the process of applying the Company's accounting policies and which have the

most significant effect on the amounts recognised in these condensed interim financial statements are the same as those described in the financial statements for 2023.

Uncertainty of estimates

The principal judgements which the Management Board made in the process of applying the Company's accounting policies and which have the most significant effect on the amounts disclosed in

these condensed interim financial statements are the same as those described in the financial statements for 2023.

SEGMENT REPORTING

For reporting purposes, the Company has identified operating segments corresponding to the Company's components:

- that engage in business activities from which they may earn revenues and incur expenses;

NOTES TO THE STATEMENT OF COMPREHENSIVE INCOME

1.1. Revenue

	1 Jan– 30 Sep 2024 <i>(unaudited)</i>	1 Jan– 30 Sep 2023 <i>(unaudited)</i>
Revenue	106,658,014	34,280,259
Total revenue	106,658,014	34,280,259

In the reporting period, the Company generated revenue of PLN 106,658,014, up 211.14% relative to the corresponding period of the previous year, when it amounted to PLN 34,280,259. As in the previous periods, the main source of revenue in the nine

months ended 30 September 2024 was sales of proprietary games and third-party developed games released by the Company as part of its publishing services.

Revenue by geographical region

The Company operates in seven main geographical areas: Poland, its home market, the European Union, the UK, the US, Japan, Hong Kong and other countries (including Canada, Korea, and Brazil).

Below is presented revenue from external customers by geographical area. The classification is based on the place of registration of the third-party customers (mainly online platforms).

Revenue by distribution channel

Of the total revenue amount, PLN 105,697,228 (PLN 33,930,333 in the nine months ended 30 September 2023) was revenue from sales of games and products directly related to games (such as soundtracks). In the nine months to 30 September 2024, the Company's ten largest

distribution partners, including Valve (Steam), Microsoft, Sony, Genba and HeyBox, accounted for 95.91% of total revenue from sales of games, with revenue from Valve representing more than 60% of total revenue.

1.2. Operating expenses

	1 Jan– 30 Sep 2024 (unaudited)	1 Jan– 30 Sep 2023 (unaudited)
Depreciation and amortisation	4,956,455	3,333,042

Taxes and charges	1,336,973	320,436
Total operating expenses	51,069,068	33,888,079

Depreciation and amortisation

	1 Jan– 30 Sep 2024 (unaudited)	1 Jan– 30 Sep 2023 (unaudited)
Depreciation and amortisation charges made during the year:		
Depreciation of property, plant and equipment	1,842,087	2,184,521
Amortisation of intangible assets	4,037,684	2,404,534
Total	5,879,771	4,589,056
Allocation to project costs	(965,527)	(1,298,225)
Land (including perpetual usufruct of land)	42,212	42,212
Total	4,956,455	3,333,042

The year-on-year growth of 48.71% in the depreciation and amortisation expense in the nine months to 30 September 2024, to PLN 4,956,455, was mainly attributable to the 67.92% higher amortisation (PLN 4,037,684 vs PLN 2,404,534 the year before) of intangible assets, i.e., expenditure on proprietary games and games from the publishing portfolio, following the start of amortisation of the publishing division's products released in recent quarters, mainly *The Thaumaturge* and *Creatures of Ava*

Services

The year-on-year increase of 42.56% in the cost of services in the nine months ended 30 September 2024, to PLN 28,565,995, was driven mainly by higher marketing expenses (PLN 5,194,774 vs PLN 3,372,404 the year before) in the run-up to the release of new games from the proprietary and publishing portfolios. As in prior periods, the largest item of services was royalties payable to third-party developers based on revenue from sales of their

Frostpunk 2, launched on 23 September 2024, will begin to be amortised starting from the first day of the month immediately following its release, i.e. as of 1 October 2024. On the other hand, depreciation of property, plant and equipment fell by 15.67% year on year, to PLN 1,842,087, as a result of lower expenditure on IT equipment. A major portion of the expenses (PLN 965,527 in the nine months to 30 September 2024 vs PLN 1,298,225 the year before) was allocated to project costs.

productions. The total amount of royalties payable to third-party studios in the reporting period was PLN 11,766,222, compared with PLN 7,231,401 the year before.

Other material items of the cost of services in the nine months ended 30 September 2024 included management, IT, legal, and advisory services as well as expenditure on training and conferences.

The Company's total expenditure on intangible assets (production of games) which was capitalised in the nine months ended 30 September 2024

rather than recognised under services was PLN 14,600,334 (nine months ended 30 September 2023: PLN 12,797,550).

Salaries, wages and employee benefits

The significant 61.15% increase in salaries and wages (to PLN 15,451,599, from PLN 9,588,136 in the reference period) was mainly attributable to a larger amount of provisions recognised by the Company for annual bonuses for employees, independent contractors and the Management Board, which are linked to the Company's net profit. As at the end of September 2024, the total balance of these provisions was PLN 5,966,727 (see Note 2.14), compared with PLN 5,999,152 as at the end of June 2024 and PLN 703,840 as at the end of September 2023. It is worth noting that salaries and wages include a non-cash provision for the Company's 2021–2025 Incentive Scheme. As at the reporting date, given the decreasing likelihood of meeting the Scheme's targets (due to

delays in new game releases, including *The Alters*), the Company reduced the provision for the Scheme costs relative to 30 June 2024. As at 30 September 2024, the provision stood at PLN 2,882,089, down from PLN 3,872,356 as at the end of June 2024. In the reference period, the amount of provisions recognised for the Scheme was PLN 2,013,368 (as at 30 September 2023).

The Company's expenditure on intangible assets (production of games) which was capitalised in the nine months to 30 September 2024 rather than recognised under salaries and wages amounted to PLN 15,346,926 (nine months to 30 September 2023: PLN 12,593,683).

Deferred income tax:		
Attributable to current year	(739,909)	(163,921)
Tax effect recognised in current year	6,172,632	3,363,147

With respect to income tax, 11 bit studios S.A. is bound by laws and regulations of general application. The Company does not conduct operations in any Special Economic Zone, which

would entail the applicability of other rules for calculating taxes. The Company's fiscal and accounting year is the same as the calendar year.

Effective tax rate:

	1 Jan– 30 Sep 2024 <i>(unaudited)</i>	1 Jan– 30 Sep 2023 <i>(unaudited)</i>
Profit before tax	53,719,743	1,660,363

Other changes – effect of IP Box on deferred tax	884,400	65,961
Total	6,172,632	309,625

The tax rate applied in the above reconciliation in 2024 and 2023 is 19%. It is the corporate income tax rate applicable in Poland in accordance with the tax laws. The effective tax rate was 11.49% in the nine months ended 30 September 2024, compared with 18.65% the year before.

With respect to sales of proprietary games the Company uses the IP Box relief, which was introduced on 23 October 2018 pursuant to the Act Amending the Personal Income Tax Act, the Corporate Income Tax Act, the Tax Legislation and certain other acts, and has been in effect since 1 January 2019. Under the Act, the Company's revenue from the sale of qualifying intellectual property rights (games) multiplied by the nexus index was taxed at a preferential CIT rate (5%). In the

nine months ended 30 September 2024, the IP Box relief amounted to PLN 5,777,783, compared with PLN 678,967 in the corresponding period of 2023.

Tax laws relating to value added tax, corporate and personal income tax, property tax, and social security contributions are regularly amended. Tax settlements may be subject to inspection over a period of five years. As a result, the disclosures in the financial statements may change at a later date after their amount is finally determined by the tax authorities. To the best of its knowledge, the Management Board is not aware of any circumstances existing as at the date of these financial statements which would necessitate the recognition of provisions for future liabilities to the revenue office.

2.2. Perpetual usufruct of land

As at the issue date of these condensed interim financial statements, the Company had one effective agreement on perpetual usufruct of land, concerning a developed property at ul. Brzeska 2 in Warsaw, purchased by the Company at the end of 2018 to house its new headquarters. Since 1 January 2019, the right of perpetual usufruct to the property located at ul. Brzeska 2 in Warsaw has been disclosed in the Company's statement of financial position (under right-of-use assets and lease liabilities). The right is depreciated over the term of the perpetual usufruct agreement, i.e., until 27 October 2099.

The lease payments are discounted at the lessee's incremental borrowing rate. The incremental borrowing rate was estimated by the Company as the interest rate at the inception of the lease at which the lessee (the Company) would have to borrow funds necessary to purchase a given asset for a similar term and with a similar security. The incremental borrowing rate used to measure the lease liability is 3.4%.

2.3. Intangible assets

Amortisation is calculated based on useful lives of the following intangible assets:

Completed development work:

As at 30 September 2024, completed computer games development work (PLN 97,979,685) comprised games released in prior periods as well as

in the reporting period, including: *South of The Circle*, *The Invincible*, *The Thaumaturge*, *INDIKA*, *Creatures of Ava* and *Frostpunk 2*.

Ongoing development work:

As at 30 September 2024, expenditure on ongoing development work (PLN 98,548,433) included mainly expenditure on the development of games, in particular *The Alters* and *Project 8*, and third-party

games in the publishing division. Expenditure on the largest of the projects accounted for 50% of total expenditure on ongoing development work.

Testing ongoing development work for impairment:

Key assumptions used to calculate the value in use of material ongoing development work based on the discounted cash flow model:

The Company makes projections of revenue and expenses over a time horizon of up to five years from the financial statements date, and then discounts them with the weighted average cost of capital (WACC). The discount rate applied in these financial statements is 11.2%.

The weighted average cost of capital was determined using the following capital valuation model: $WACC = \text{cost of debt} \times \text{weight of debt} + \text{cost of equity} \times \text{weight of equity}$. The cost of debt was estimated based on the incurred financial liabilities,

i.e. the PLN 12,600,000 investment credit facility with PKO BP S.A.

Revenue was estimated based on a detailed analysis of various areas of the games market using the Company's long-time experience and sales results for 11 bit studios S.A.'s current game portfolio.

Expenses were estimated on the basis of costs already incurred and a projection of costs to be incurred until the forecast release date.

A sensitivity analysis performed as at 30 June 2024 showed that there was no risk of impairment of intangible assets comprising ongoing development work. In particular, a hypothetical 20% reduction in

projected revenue from the sale of games would not necessitate the recognition of impairment losses.

Investment recognition method	equity method

On 28 February 2022, the Company entered into an agreement to purchase 40 shares in Fool's Theory Sp. z o.o. with a par value of PLN 50 per share, representing in total 40% of that company's share capital. This holding gives 11 bit studios S.A. significant influence over Fool's Theory Sp. z o.o.

11 bit studios S.A.'s payment for the acquired shares was divided into two tranches. The first tranche, of PLN 2,619,216, was paid on 9 March 2022. Under an Annex of 29 September 2023, the amount of the second tranche was set at PLN 1,571,529. It was to be settled seven months after the release of *The Thaumaturge*, developed by Fool's Theory Sp. z o.o. 11 bit studios S.A. is the game's publisher.

On 9 February 2024, the Company signed Annex 2, providing that the second tranche would be paid within six months from the time when 11 bit studios S.A.'s net revenue from sales of *The Thaumaturge* exceeded PLN 45 million. This threshold must be exceeded before 20 February 2028. *The Thaumaturge* was released on 4 March 2024. Under Annex 2, the amount of the second tranche will depend on net revenue generated by the Company from sales of the game over six months from its release and the percentage of positive user ratings on Steam Reviews received by *The Thaumaturge* over that period. In accordance with Annex 2, the second tranche amount will range from PLN 1,571,529 to PLN 3,666,901.

As at 30 September 2024, the second tranche was estimated at PLN 0, based on the assumption that

11 bit studios S.A. 's revenue from the sale of *The Thaumaturge* will not exceed PLN 45 million.

Furthermore, on 28 February 2022, the Company concluded a shareholder agreement with Jakub Rokosz and Krzysztof Mąka, setting out detailed rules for managing Fool's Theory Sp. z o.o.'s affairs and the mutual rights and obligations of its shareholders. The shareholders agreed to prepare an incentive scheme for key employees and independent contractors of Fool's Theory Sp. z o.o., and currently work is continuing to develop its framework. The scheme will cover the period 2024–2027.

If Fool's Theory Sp. z o.o. achieves the targets set in connection with the scheme, 11 bit studios S.A. will pay Jakub Rokosz and Krzysztof Mąka a bonus in the aggregate amount of PLN 1,000,000. In the Company's opinion, this contingent consideration constitutes a service fee and as such it will be recognised in the Company's under salaries, wages and personnel expenses on a straight-line basis over the period of service in accordance with IAS 19. The cost of this consideration will be recognised on a straight-line basis until the end of 2027. As at the reporting date, the Company did not recognise any amounts in respect of this cost item.

Trade receivables

The Company recognised allowances for trade receivables past due by more than 360 days based on historical credit loss rates determined through an analysis of receivables repayment.

Trade receivables are measured in the accounting books at amounts corresponding to transaction prices adjusted for impairment, if any, in accordance with the expected loss model.

Since the Company has cooperated for years with the same trading partners with a very high

financial standing and has never experienced any payment problems in those relations, it applies simplified methods to measure receivables at amortised cost, unless this would distort information contained in its statement of financial position, in particular where the period until the due date for payment is not long. Historically, there have been only minor changes to the list of trading partners through which the Company sells games.

The balances as at 30 September 2024 disclosed below include receivables from the Company's

largest customers, accounting for over 5% of total trade receivables.

Fair value of the Company's financial assets and liabilities not measured at fair value

In the opinion of the Company's Management Board, the carrying amounts of trade receivables

and payables and cash presented in these financial statements approximate their fair values.

Fair value measurement methods

The Company did not change the methods used to measure financial instruments relative to the prior reporting period.

The fair value of financial assets and liabilities listed on active markets is determined based on their quoted prices (Level 1 inputs). The fair value of other

items is determined based on either directly or indirectly observable inputs (Level 2 inputs) or unobservable inputs (Level 3 inputs).

The fair value of loans for employees is determined based on future cash flows, discounted at the current interest rate on loans.

Financial assets measured at fair value:

	30 Sep 2024	31 Dec 2023	Fair value hierarchy
Starward Industries S.A. shares	1,212,249	1,652,536	Level 1

3.2. Share-based payments

Employee stock option plan for 2021–2025

Pursuant to Resolution No. 03/01/2021 of the Company's Extraordinary General Meeting of 21 January 2021, the Company operates an Incentive Scheme for members of the Management Board, employees and independent contractors. Persons who signed Incentive Scheme participation agreements with the Company will be entitled to acquire Series C subscription warrants convertible into Series H shares, subject to meeting the targets set for the Company and defined in the Incentive Scheme Rules.

The Incentive Scheme covers the years 2021–2025. Persons who have the right to acquire the warrants will be entitled to exercise them by subscribing for Series H shares by 30 June 2029.

Pursuant to Resolution No. 05/01/2021 of the Extraordinary General Meeting of 21 January 2021, the Company may issue up to 125,000 Series H shares with a par value of PLN 0.10 per share and total par value of PLN 12,500 for the purposes of the Incentive Scheme. Upon proposal from the Company's Management Board, the Supervisory Board will pass a resolution, promptly after the Annual General Meeting approving the Company's financial statements for the financial year 2025, to grant Series C subscription warrants to the Incentive Scheme participants, in such number as specified in the Management Board's proposal.

The grant of the warrants is subject to the achievement of the following financial targets (in PLN) by the Company:

Total revenue of 11 bit studios S.A., 2021–2025	656,000,000
Total profit before tax of 11 bit studios S.A., 2021–2025	328,000,000

If the financial targets are not fully met, the pool of shares offered under the Incentive Scheme will be reduced by 4% for each 1% of the underperformance. If the financial targets are exceeded, the issue price of Series H shares will be reduced by 1% for each

incremental 2% of the overperformance, however, the discount amount may not exceed 10% of the issue price. The issue price of Series H shares under the 2021–2025 Incentive Scheme was set at PLN 474.93.

Recognition of the 2021–2025 Incentive Scheme

The fair value of warrants granted under the Incentive Scheme has been estimated using the Damodaran warrant pricing model, which takes into account the Company's share price

as at the date of signing the Incentive Scheme participation agreement (the grant date) and its annual volatility. Costs of the Incentive Scheme are recognised in the statement of profit or

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

loss over the entire term of the Incentive Scheme, with a corresponding entry in capital reserves. The terms and conditions of the incentive scheme are based on the achievement of the general corporate objectives rather than targets set for individual persons (Scheme participants). Therefore, as the condition of direct allocation to an asset is not

satisfied, these costs do not meet the capitalisation requirement and are recognised in the Company's profit or loss. The key parameters of the model used to calculate the fair value of the potential Incentive Scheme premium and the costs to be charged to the statement of comprehensive income in a given period are presented below:

Total Incentive Scheme cost as at 31 Dec 2025 remaining to be recognised (PLN)	-	-	4,051,355
Total	-	-	11,418,604

As at the reporting date, the Company recognised costs in the statement of comprehensive income based on the assumption that the 2021-2025 Incentive Scheme may not be implemented in full.

The Company remeasured the total costs of the 2021-2025 Incentive Scheme as at the reporting date at PLN 11,418 604, up from PLN 12,242,390 as at 31 December 2023. This led to a decrease in the costs of the Incentive Scheme recognised in the first three quarters of 2024.

objectives set out in the Incentive Scheme are Group-wide and have not been set for individual persons (participants of the Scheme). All costs of the Scheme are recognised as they are incurred in the statement of comprehensive income and are not partly capitalised in the statement of financial position.

The costs of the 2021-2025 Incentive Scheme are recognised over its entire term. The financial

NOTES TO THE FINANCIAL STATEMENTS

On 9 June 2024, the Company's Annual General Meeting passed Resolution No. 17/06/2024 to adopt a revised remuneration policy for members of the Company's Management and Supervisory Boards. The full text of the remuneration policy is available on the Company's website in the Investor Relations tab.

In accordance with the remuneration policy, members of the Management Board are entitled to an annual bonus, whose amount depends on the Company's net profit earned in a given period.

Other related-party transactions

Apart from the transactions described above, the Company did not enter into any other related-party transactions.

Information on related-party transactions

No transactions were executed on a non-arm's length basis in the period from 1 January to 30 September 2024 or in the comparative period.

4.2. Off-balance-sheet commitments

As at the issue date of this report for the nine months ended 30 September 2024, the Company had off-balance-sheet commitments to incur expenditure (on intangible assets only) of EUR

1,458,405, PLN 670,849 and USD 440,441. The commitments are related to publishing agreements executed by the Company with third-party development studios.

4.3. Contingent assets and liabilities

Contingent liabilities

Security for an investment credit facility contracted with PKO BP S.A. in December 2018 to finance a part of the purchase price for the property at ul. Brzeska 2 in Warsaw, comprising a blank promissory note issued by the Company, together with a promissory note declaration, contractual mortgage of up to PLN 20,223,000 over perpetual usufruct of land and ownership title to the building situated on the property, and assignment of cash receivables under an insurance contract for the property in favour of PKO BP.

Security for a multi-purpose credit facility agreement signed by the Company with PKO BP S.A. in June 2023 to finance the Company's day-to-day operations, comprising a blank promissory note issued by the Company, together with a promissory note declaration, PLN 16,000,000 guarantee issued by Bank Gospodarstwa Krajowego, contractual mortgage of up to PLN 30,000,000 (it will replace the contractual mortgage for the investment credit facility of December 2018)

over perpetual usufruct of land and ownership title to the building situated on the property, and assignment of cash receivables under an insurance contract for the property in favour of PKO BP S.A.

Surety agreement with Powszechna Kasa Oszczędności Bank Polski S.A., under which the Company issued a surety to secure a PLN 3,500,000 one-year multi-purpose credit facility agreement concluded by PKO BP S.A. with Fool's Theory Sp. z o.o. on 5 June 2023. In accordance with an annex signed on 4 June 2024, the surety for up to PLN 5,250,000 is valid until 4 June 2028. It was granted on arm's length terms. In the Company's opinion, as at the reporting date there were no grounds for recognising provisions in respect of the surety.

Contingent assets

As at 30 September 2024 and in the comparative period, the Company did not recognise any contingent assets.

4.4. Seasonal and cyclical changes in the Company's business during the reporting period

No seasonal or cyclical fluctuations of a non-recurring nature were reported in the nine months to 30 September 2024.

4.5. Events subsequent to the reporting date

On 1 October 2024, 11 bit studios S.A. announced that the release of *The Alters*, originally scheduled for the fourth quarter of 2024, had been moved to the first quarter of 2025. The decision to postpone the launch (planned for PC and console versions) was driven by the need to address player feedback, refine the game and improve its visibility ahead of release.

On 29 October 2024, the mobile version of *Frostpunk*, titled *Frostpunk: Beyond the Ice*, was officially launched. Developed by the Chinese studio NetEase and published by Korea's Com2Us, the game is available for free on Google Play and the App Store, featuring optional in-app purchases.

On 13 November 2024, the Company announced that the console version of *The Thaumaturge* would premiere on 4 December 2024. The game was developed by Fool's Theory Sp. z o.o., an associate of 11 bit studios S.A. The PC version of *The Thaumaturge* had been released earlier this year, on 4 March 2024.

On 14 November 2024, to celebrate the 10th anniversary of the release of *This War of Mine*, the Company revealed plans for a new DLC for the game, titled *Forget Celebrations*. The DLC is set to launch by the end of the year, with all proceeds from sales going to charitable causes.

There were no other events occurring after the reporting date that would have had a material effect on these condensed interim financial statements.

5.

OTHER INFORMATION RELEVANT TO THE QUARTERLY REPORT

5.1. Significant achievements or failures in 1 January to 30 September 2024

In the reporting period, 11 bit studios S.A. posted revenue of PLN 106,658,014, a 211.14% increase from the PLN 34,280,259 reported the year before. 26% of the revenue was derived from sales of games developed by third parties who used the publishing services provided by the Company. In the reference period, the ratio reached 39%. In the three months ended 30 September 2024, sales amounted to PLN 75,897,446, up 698.52% year on year.

The surge in sales, especially during July–September 2024, was driven by the release of *Frostpunk 2*, which launched for PC on 20 September 2024. By the end of the third quarter, nearly 441,000 copies of the game had been sold (net of returns). Notably, 53.7% of buyers (as at 30 September 2024) opted for the Deluxe edition, priced at USD 74.99 compared to USD 44.99 for the standard version. The Deluxe edition includes three paid DLCs, which are scheduled for release in the coming quarters. As at the end of the third quarter of 2024, 24.8% of *Frostpunk 2* purchasers were from China. Fans from the US accounted for 18.2% of buyers, followed by Germany (7.1%), Russia (5.6%), and South Korea (3.9%). Buyers from Poland accounted for 2.9% of total sales. The Company's revenue from *Frostpunk 2* during the reporting period, which included a portion of payments from Microsoft for making it available on Game Pass, totalled PLN 52,329,004, or 49.06% of the Company's total revenue.

In the nine months ended 30 September 2024, a significant portion of the Company's revenue came from sales of *Frostpunk* for various hardware platforms, along with related DLCs and merchandise, such as the game's soundtrack and board game version. This revenue reached PLN 22,210,806 in the reporting period, a 33.88% increase year on year, and represented 20.82% of the Company's total revenue, compared to 48.39% in the same period last year. The increase in revenue from *Frostpunk* sales was largely driven by the game's strong presence on leading distribution platforms, supported by the Company's long-standing partnerships with key industry players.

A noticeable contribution to 11 bit studios S.A.'s revenue during the first nine months of 2024 came from the publishing division's titles released in recent quarters. Leading the way was *The Thaumaturge*, which brought in PLN 6,791,077. It launched for PC on 4 March 2024, with the console version scheduled for release on 4 December 2024. The game was developed by Fool's Theory Sp. z o.o., an associate of 11 bit studios S.A. Close behind was *Creatures of Ava*, which generated PLN 6,006,474 in revenue following its release for PC and Xbox on 7 August 2024. A large portion of this revenue came from Microsoft, as the game was made available on Game Pass. The title was developed by the Spanish studios Chibig and Inverge Studio. Another important release from the publishing segment's portfolio and a major source of revenue for 11 bit

studios S.A. in the reporting period was *INDIKA*, developed by the Kazakh studio Odd Meter. Launched on 2 May 2024, the game added PLN 4,875,552 to the Company's revenue in the nine months to 30 September 2024. Rounding out 11 bit studios S.A.'s revenue during the reporting period were sales from the back catalogue, including *This War of Mine* and older titles from the publishing portfolio, notably *The Invincible*, *Moonlighter* and *Children of Morta*. The Company's total revenue from this source reached PLN 14,445,101, compared with PLN 17,690,121 in the reference period.

Operating expenses in the nine months ended 30 September 2024 were PLN 53,583,812, a 48.77% increase on the nine months ended 30 September 2023, when they stood at PLN 36 018 221. The largest item of operating expenses in the first nine months of 2024, as well as in the comparative period, was cost of services: PLN 28,565,995 vs PLN 20,038,142 the year before. It included royalties for the producers of *The Invincible*, *INDIKA*, *Moonlighter* and *Children of Morta*, amounting to PLN 11,766,222 in the reporting period, up from PLN 7,231,401 in the same period of the previous year. Another major component of the Company's cost of services was marketing expenses. They rose to PLN 5,194,744, from PLN 3,372,404 in the first nine months of 2023, in line with increasing expenditure incurred to prepare for the releases of games from the proprietary and publishing portfolios that took place in recent quarters (e.g. cost of production of film trailers, translations, tests and participation in trade fairs). In the nine months ended 30 September 2024, the Company also spent PLN 15,451,599 on salaries and wages (PLN 9,588,136 the year before). It should be noted, however, that the item included a non-cash provision (PLN 2,882,089 vs PLN 2,013,368 in 2023) recognised every quarter (until the fourth quarter of 2025 inclusive) for the costs of the 2021–2025 Incentive Scheme. Another non-cash provision recognised by the Company and included in salaries and wages was a provision for annual bonuses for employees and independent contractors (including the Management Board), which are linked to the Company's net profit. As at the end of September 2024, the total balance of these provisions was PLN 5,966,727 (see Note 2.14), compared with PLN 703,840 in the corresponding period of the previous year.

At PLN 4,956,455, depreciation and amortisation was a considerable item of operating expenses in the first three quarters of 2024 (up 48.71% year on year). Its increase was attributable to the commencement of amortisation of expenditure on the games released by the publishing division in recent quarters. The amount did not include the expenditure incurred on *Frostpunk 2*, which will begin to be amortised starting from 1 October 2024.

Given the year-on-year increase in revenue, accompanied by a slower rate of growth in operating expenses, in the nine months ended 30

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

September 2024 11 bit studios S.A. posted an operating profit of PLN 53,080,009, compared with an operating loss of PLN 1,673,098 reported a year earlier. EBITDA in the reporting period went up to PLN 58,036,465 from PLN 1,659,944 in the corresponding period of the previous year.

The balance of finance income and finance costs had a small but positive effect on the Company's profits in the nine months ended 30 September 2024. It amounted to PLN 639,734, down from the PLN 3,372,028 reported the year before, and was attributable to income from the management of surplus cash (interest on bank deposits) and the recognition of the Company's share in profits earned by its associate Fool's Theory Sp. z o.o. The balance of finance income and finance costs included foreign exchange losses on the remeasurement of the Company's financial assets denominated in foreign currencies, as the third quarter of 2024 saw the depreciation of the Polish currency against USD and EUR. The Company also incurred the cost of debt service on the credit facility contracted with PKO BP S.A. in December 2018 to purchase the office building at ul. Brzeska 2 in Warsaw (the Company's current headquarters).

The net finance income contributed to 11 bit studios S.A.'s profit before tax, which reached PLN 53,719,743 for the nine months ended 30 September 2024, relative to PLN 1,660,363 in the same period last year. After income tax of PLN 6,172,632 (PLN 309,625 the year before), the Company posted a net profit of PLN 47,547,111, up by 3,420.1% from the PLN 1,350,738 reported for the nine months ended 30 September

2023. Net profit margin was 44.57%, compared with 3.94% the year before.

In the nine months to 30 September 2024, 11 bit studios S.A. continued work on the development of the following proprietary games: *Frostpunk 2* (released on 20 September 2024), *The Alters* (to be released in the first quarter of 2025) and *Project 8* (code name). As at the reporting date, the teams responsible for these titles consisted of 84, 56 and 37 members, respectively. In the nine months ended 30 September 2024, the Company's expenditure on the development of games in the publishing segment reached PLN 45,337,238, compared with PLN 41,993,820 in the comparative period.

In the reporting period, 11 bit studios S.A.'s publishing division focused on producing and preparing the releases of new games developed by third-party studios and acquiring new titles for the publishing portfolio as well as monetising the titles released in previous quarters. The nine months ended 30 September 2024 saw the releases of *The Thaumaturge* (February 2024), *INDIKA* (May 2024) and *Creatures of Ava* (August 2024). As at the date of issue of these financial statements, 11 bit studios S.A.'s publishing portfolio consisted of one (formally disclosed) project, i.e. *Botin* (working title), being developed by the Spanish studio Digital Sun (previously responsible for the production of *Moonlighter*). As at 30 September 2024, the Company's commitments under publishing agreements totalled EUR 1,458,405, PLN 670,849 and USD 440,441.

According to the submitted declarations, no members of the Company's Supervisory Board other than Marcin Kuciapski and Piotr Wierzbicki hold shares in 11 bit studios S.A.

In the reporting period, there were changes in the holdings of Company shares by the management and supervisory staff, as discussed in more detail in **Note 5.3** above.

5.5. Material court proceedings

The Company is neither the subject of nor a party to any material proceedings pending before a court, a

competent arbitration body or a state administration authority.

5.6. Loan sureties and guarantees issued by the Company

On 5 June 2023, 11 bit studios S.A. signed a surety agreement with Powszechna Kasa Oszczędności Bank Polski S.A., under which it issued a surety to secure a PLN 3,500,000 one-year multi-purpose credit facility agreement concluded by PKO BP S.A. with Fool's Theory Sp. z o.o. on 5 June 2023. In

accordance with an annex signed on 4 June 2024, the surety for up to PLN 5,250,000 is valid until 4 June 2028. It was granted on arm's length terms. In the Company's opinion, as at the reporting date there were no grounds for recognising provisions in respect of the surety.

6. Factors which will affect the Company's performance in the next quarter and beyond

In the coming months, including the time up to the end of 2024, 11 bit studios S.A.'s performance will be driven mainly by further sales of *Frostpunk 2*, released for PC on 23 September this year. The Company is also working on its console versions, which are expected to be placed on the market in a few months. Likewise, work is continuing on DLCs for *Frostpunk 2*. As previously announced, there will be three paid DLCs, which will be available for free to buyers of the Deluxe version of the game. The DLC release road map will be presented at a later date.

On 4 December 2024, the Company will launch sales of the console version of *The Thaumaturge*, a game

from the publishing division's portfolio produced by Fool's Theory Sp. z o.o., whose PC version was released on 4 March 2024.

By the end of 2024 (with the exact date to be announced later), fans of *This War of Mine* will be offered the *Forget Celebrations* DLC, created to celebrate the 10th anniversary of the game's launch on 14 November 2014. All proceeds from this DLC will be donated to charity.

In the months ahead, the revenue generated by *Frostpunk 2* will be supported by sales of the publishing division's titles released in recent quarters: *The Invincible* (November 2023), *The*

Thaumaturge (March 2024), *INDIKA* (May 2024) and *Creatures of Ava* (August 2024).

Another key source of revenue will be the Company's back catalogue, including products such as *This War of Mine* and *Frostpunk*, as well as paid DLCs for the latter offered through the Season Pass. *Frostpunk*, whose PC version premiered in April 2018, continues to attract strong interest, as evidenced by its sales performance in the first nine months of this year, which surpassed results from the same period in 2023. Complementing back catalogue revenue will be continued sales of the publishing division's titles, led by *Moonlighter* and *Children of Morta*. However, as in the case of proprietary games, these revenues are expected to gradually decline despite the efforts undertaken by the Company, owing to natural ageing of the products.

Looking ahead, over the next several years 11 bit studios S.A.'s financial results will primarily depend on the release of new proprietary titles, including

The Alters., which is scheduled to launch in the first quarter of 2025 for PC and Xbox Series X/S and PS5 consoles. Work is also progressing on *Project 8* (code name), though its release date has not yet been disclosed. These games are being developed by teams of 56 and 37 members, respectively. Additionally, a team of 84 are currently working on further developing *Frostpunk 2*, including creating DLCs and console versions.

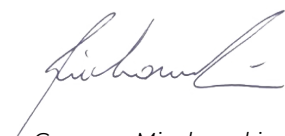

In the coming quarters and years, the publishing division is expected to make a noticeable contribution to the Company's performance. As at the reporting date, the publishing portfolio (publicly disclosed) included one title, codenamed *Botin*. This game is being developed by Digital Sun Games, a Spanish studio previously responsible for the production of *Moonlighter*. As at the reporting date, the Company's total commitments under publishing agreements amounted to EUR 1,458,405, PLN 670,849 and USD 440,441.

These condensed interim financial statements were authorised for issue by the Management Board on 14 November 2024.
